

REMARKS

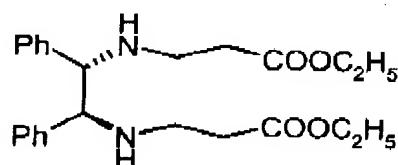

Applicant hereby responds to the Election requirement made in the Office Action. Applicant has amended the Specification for a minor typographical error. No new matter has been added.

Election

The Office Action alleges that:

The examiner respectfully reminds applicant that a **single disclosed species** is defined as a species where each variable in formula (I),  $R^1-R^6$  and any substituent variables within  $R^1-R^6$ , are explicitly and unambiguously defined. Which means that the elected species will be **one compound** defined, for instance, when  $R^1=H$ ;  $R^2=CH_3$ ;  $R^3=H$ ; etc., such that a **single disclosed species** is described with which to begin prosecution.

Applicant elects the following compound of the formula (I):

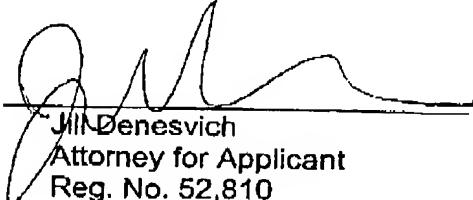

This compound is defined by  $R^1=H$ ,  $R^2=Ph$ ,  $R^3=H$ ,  $R^4=Ph$ ,  $R^5$  and  $R^6=COOC_2H_5$

Applicant hereby elects the single disclosed species as the one compound.

In view of the foregoing amendments and remarks, examination of the claims is requested.

Respectfully submitted,

By   
JIM Denesovich  
Attorney for Applicant
